1950: 3rd floor condemned. It is commonly thought that the instability of the third floor, causing its condemnation, was due to the 1949 earthquake, but the instability was actually caused by the removal of a support wall between two classrooms on the second floor sometime during the '30s or '40s which caused the floor to sag and shake. The engineers also proclaimed the floor joists to be inadequate and the concrete to be of poor quality. The removal happened during the summer of 1951. William Logan, future principal, first hired as teacher and JV coach. Enrollment is 898. (Hummer 9/25/1951)
